

Covid-19 & Saker Shoprite Stores

During the current COVID-19 situation in our hometown, we emphatically advocated for the need to protect our seniors and elderly population during this unprecedented time.

With this concern in mind, all Saker ShopRite Stores have taken steps to designate a register(s) in each of their stores for customers 60 years of age or older until the current crisis abides. These lanes will be open starting tomorrow 3/19.

In designating these lanes for such use, it is our hope that our venerable customers have the ability to move quickly through the check-out process during all hours of operation.

Additionally, they will take additional steps to insure that high contact surfaces are cleaned in between each customer transaction.

Tech savvy seniors can take further advantage of both our in-house ShopRite from Home service, as well as Instacart; a third-party grocery service that shops at our stores.

To aid in that process, please feel free to use the following links:

1. <https://shop.shoprite.com/digitalspotlight> (Shoprite from Home Tutorial)
2. <https://www.instacart.com> (Instacart's Homepage)

During this ever-changing environment, it is our goal to continue to provide services to help our residents.

Please stay healthy.
